Armel Job

A latecomer to writing, this teacher of Classical literature, born in 1948, is an observer of mentalities and social and political life. His complex novels describe the fate of apparently ordinary characters.

The doctor from a village on the Belgo-German border has disappeared. The Mayor is convinced that Mathilda, the doctor's wife, has murdered him. As he is in love with her, he will do anything to protect her. However the truth is altogether different.
